

MUHAMMAD HAKIM BIN ZAABA

Aspiring Platform Engineer | Cloud Infrastructure

Kapar, Selangor, Malaysia | 011-6820 2168 | hakimz.7117@gmail.com
LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Diploma in Information Technology student at Universiti Tun Hussein Onn Malaysia (UTHM) with hands-on experience across Linux systems, computer networking, backend development, containerized deployment, observability, CI/CD, and Infrastructure as Code. Building toward Platform Engineering and Cloud Infrastructure through practical projects focused on deployment, automation, monitoring, troubleshooting, reliability, and maintainability.

TECHNICAL SKILLS

Platform & Infrastructure: Linux (Fedora, Debian, Ubuntu Server), Docker, Docker Compose, Nginx, SSH, systemd, KVM/libvirt

Cloud & IaC: AWS, Terraform, Cloudflare, Infrastructure as Code, infrastructure automation

Observability & Delivery: Prometheus, Grafana, Alertmanager, GitHub Actions, CI/CD, monitoring, technical documentation

Networking: TCP/IP, subnetting, VLAN, OSPF, HSRP, DHCP, ACLs, network design and troubleshooting

Backend & Automation: Python, Bash, TypeScript, SQL, PostgreSQL, Prisma ORM, REST APIs, database design

Professional Skills: Leadership, communication, teamwork, problem-solving, stakeholder coordination, attention to detail

SELECTED PROJECTS

StudexHub | Backend & Infrastructure | TypeScript, PostgreSQL, Docker, Nginx, Prometheus

- Contributed primarily to backend and infrastructure for a collaborative academic management platform, including API logic, authentication/session handling, PostgreSQL/Prisma integration, and notification workflows.
- Built and operated the self-hosted deployment using Docker Compose, Nginx, Cloudflare Tunnel, Linux, monitoring/alerting, CI validation, and backup/recovery workflows.

Enterprise Campus Network Design | Networking | Cisco Packet Tracer, OSPF, HSRP, VLAN, DHCP

- Designed a three-tier campus network with VLAN segmentation, dynamic routing, gateway redundancy, centralized DHCP, ACL-based access control, VoIP support, and failover testing.

Mini Control Plane | Automation & Operations | Python, Linux, Telegram, systemd

- Built a lightweight control plane for homelab and self-hosted services with health checks, controlled service restarts, backup triggers, alert forwarding, action logging, low-privilege execution, and command allowlisting.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

President - Persatuan Pelajar Diploma (PPD), UTHM | Session 2026/2027

- Lead organizational planning and programme coordination, working with committee members and university stakeholders on student initiatives and internal operations.

Board Member (Auditor I) - Persatuan Urban Theatrum (NGO) | April 2026 - Present

- Support governance, accountability, and audit-related oversight through review of organizational records and activities.

EDUCATION

Universiti Tun Hussein Onn Malaysia (UTHM) | Diploma in Information Technology

July 2025 - Expected January 2028 | Current CGPA: 3.78

Dean's List, Semester I (2025/2026) - GPA 3.81
